

# THE 5RS OF WATER CONSERVATION

## REDUCE

cutting off of showers and bathing differently can be done to lessen consumption.

## RECHARGE

rainwater can be harvested and used on different things.

## REUSE

water used on cleaning vegies are still clean enough to be used on various things.

## RECYCLE

Vertical type of planting puts excess water to the same cycle of use.

## RESPECT

keep the rivers, lakes, and other water bodies uncontaminated and clean.

EVERY DROP COUNTS
